We are looking for bitwarriors that can provide funny and educative challenges.
========================
Oh .... and your solution to level0 is: "bitwarrior" without the quotes.

Welcome, challenger to warchall.net.

We hope to be able to present some more realistic challenges in a safe (or not so safe environment) and hope you will like the project
!
You will find the solution to each level in
/home/level
or
/home/user/yournick/level

# WAR#5: Privacy

Please protect your ~ from any other people than yourself.

Then run ./checker

( This does not work again yet. It would check and say the solution. )

The 5th solution is "OKPRIVATE" without the quotes.
